MacroVoices Episode #180 - Professor Daniel Lacalle

The bond market gets it. Global Stocks get it. The S&P 500 has been slow to get the memo

Erik Townsend and Patrick Ceresna welcome Professor Daniel Lacalle to MacroVoices. Erik and Professor Lacalle discuss:

- Is Trump starting a currency war with China?
- What are the risks of competitive devaluation
- Is the bond market signaling a bear market?
- Global demand for dollars driving monetary policy
- What risks and repercussions MMT poses on the economy
- Outlook on yields and US treasury market
- Negative yielding European junk bondsOutlook on gold and its new correlation to the dollar
- Outlook on emerging markets

Beyond Blockchain

Check out Erik Townsend's new book!

The cryptocurrency trend of the past few years has continued to grow despite widespread predictions that it would just be a flash in the pan. Blockchain is suddenly everyone's favorite buzzword. But what if there's more to this story than meets the eye? What if Digital Currency is about to change the world in ways beyond our imagination? And what if geopolitical forces our politicians don't even understand have already inspired China and Russia to use Digital Currency to attack the U.S. Dollar's dominance over the global financial system?

Erik covers these subjects and more in his recently published book. Please visit <u>www.macrovoices.com/bb</u> for more information and to order the paperback, Kindle, or audio-book.
