Knock-on effects of the Coronavirus Crisis

Erik Townsend and Patrick Ceresna welcomes Eric to MacroVoices. Discussions include:

- Was the market dislocation inevitable or was it caused by the Coronavirus?
- Will there be even worse economic downturn due to governments bail-out policies?
- Risk-hedge long-vol portfolio management strategies
- The concept of trend following: how is it used?
- What are the consequences of the recent record-setting monetary stimulus?
- What limitations will central banks face if we move into a secular inflation environment
- What are the major implications of the current economic state?

Beyond Blockchain

The Death of the Dollar and the Rise of Digital Currency

[Check out Erik Townsend's new book!](#)

The cryptocurrency trend of the past few years has continued to grow despite widespread predictions that it would just be a flash in the pan. Blockchain is suddenly everyone's favorite buzzword. But what if there's more to this story than meets the eye? What if Digital Currency is about to change the world in ways beyond our imagination? And what if geopolitical forces our politicians don't even understand have already inspired China and Russia to use Digital Currency to attack the U.S. Dollar's dominance over the global financial system?

Erik covers these subjects and more in his recently published book. Please visit www.macrovoices.com/bb for more information and to order the paperback, Kindle, or audiobook.
