Welcome to MacroVoices Research Roundup, a FREE compilation of interesting investment research from your friends at MacroVoices. We never intend to SPAM anyone, and there is a safe-unsubscribe link at the bottom of this message if you don't want to receive future mailings. But before you opt out, please note we'll never send you marketing or sales literature - this e-mail distribution list is for worthwhile content distribution only!

Featured Guests: Ole Hansen

Commodities Can Go Up Even In Recession

Erik Townsend and Patrick Ceresna welcome Ole to MacroVoices. Discussions include:

- Commodities outlook
- Fed's policy and inflation
- List of stocks to watch out for
- Lack of investments, decarbonization and electrification
- Perspectives on US dollar
- Contango and backwardation
- Will inflation persist during a recession?
- CoT report
- Possibility of negative natural gas prices in Europe
- Copper, gold and agriculture

Beyond Blockchain

The Death of the Dollar and the Rise of Digital Currency

[Check out Erik Townsend's new book!](#)

The cryptocurrency trend of the past few years has continued to grow despite widespread predictions that it would just be a flash in the pan. Blockchain is suddenly everyone's favorite buzzword. But what if there's more to this story than meets the eye? What if Digital Currency is about to change the world in ways beyond our imagination? And what if geopolitical forces our politicians don't even understand have already inspired China and Russia to use Digital Currency to attack the U.S. Dollar's dominance over the global financial system?

Erik covers these subjects and more in his recently published book. Please visit www.macrovoices.com/bb for more information and to order the paperback, Kindle, or audiobook.
