1. Energy Transition Crisis: Nuclear SMRs VS Renewables [\[Click Here\]](#)
2. Lyn Alden - Broken Energy [\[Click Here\]](#)

Erik Townsend's latest video explains how advanced small modular nuclear reactor (SMR) technology can be used to completely replace all of the energy we now derive from fossil fuels, for less investment than what's already been spent on renewable energy in the last two decades alone.

Watch Here NOW!

Energy Transition Crisis is Erik Townsend's new documentary series explaining why Energy Transition away from fossil fuels is the single greatest challenge humanity faces in the 21st century, including why Climate Change isn't even the most important reason we need to break our addiction to fossil fuels.

Beyond Blockchain

The Death of the Dollar and the Rise of Digital Currency

[Check out Erik Townsend's new book!](#)

The cryptocurrency trend of the past few years has continued to grow despite widespread predictions that it would just be a flash in the pan. Blockchain is suddenly everyone's favorite buzzword. But what if there's more to this story than meets the eye? What if Digital Currency is about to change the world in ways beyond our imagination? And what if geopolitical forces our politicians don't even understand have already inspired China and Russia to use Digital Currency to attack the U.S. Dollar's dominance over the global financial system?

Erik covers these subjects and more in his recently published book. Please visit www.macrovoices.com/bb for more information and to order the paperback, Kindle, or audiobook.
